PROJECTS

Bazar Dor

Live Demo: assigment-7-topaz.vercel.app | GitHub: github.com/afra705/BazarDor

Technologies: Next.js, React.js, TypeScript, Tailwind CSS, MongoDB

- Developed a responsive web application for viewing market price information with category-based browsing and product details.
- Built a clean, user-friendly interface that makes it easy to find and compare prices across categories.

Fitlog Kora — Workout Library

Live Demo: fitlog-by-ifti.vercel.app | GitHub: github.com/afra705/FitLog-Workout-Library

Technologies: React.js, Next.js, TypeScript, Tailwind CSS, DaisyUI, React Icons

- Created a workout library web application that lets users browse fitness exercises through an intuitive, responsive interface.
- Designed reusable UI components with Tailwind CSS and DaisyUI, using React Icons for clear visual cues.

News Bulletin

Live Demo: news-bulletin-ten.vercel.app | GitHub: github.com/afra705/Bangla-News-24

Technologies: React.js, Next.js, Tailwind CSS

- Built a responsive news web application with easy navigation and a clear layout for reading news content.
- Implemented a frontend interface optimized for readability across desktop and mobile devices.

EDUCATION

Diploma in Engineering — Computer Science & Technology

Chattogram Mohila Polytechnic Institute, Chattogram, Bangladesh | Currently in 8th Semester
